

Mr. Governor Crist,

I want to tell you something, there is four people living together. They are not working nor are they doing any kind of community serves. But they are drawing food stamps. They take there food stamps and trade them for drugs. Tina Merter was pregnant when she meet James Russell Dedrick, jr dob:Oct 23, 1978, he is 31 yrs old and has never had a job. So James R Dedrick, jr put his name on Tina Merters baby birth certificate. So now he can get a check, food stamps, medicare. Now there are Micheal, Erica, Tina Merter & James R Dedrick, jr living all together in a house on 537 5th St, Chipley Florida 32428. They are all drowing food stamps and not woking or doing community service. That Is so wrong in alot of wasys. Tina Meter's baby is being aboused. I have seen James R Dedrick, jr pick that baby up and shake her, just becuse the baby crys and that gets on his nerves. Micheal & Erica also have shoke that baby too. They smoke ciggerets and drugs with the baby in the same room. THAT CHILD NEEDS HELP & NO ONE IS HELPING HER. Please Help this child she is mentaly challenged. It is not right that these people are selling their food stamps for drugs. My husband works 58 hrs a week for us to live and it makes me very angry to see these people sitting on their back sides and draining the system that is put in place for the needy, Not the lazy. Please do something about this injustice and Please Please save that child.

Thank You For Your Time

Susan Baker
